

Design kit and
coanda frame

THE PARASOL Zenith family

Now with optional accessories
for suspended installation

Swegon

Stylish design that is good to look at

The PARASOL Zenith family consists of a series of products, such as PARASOL Zenith, REACT Parasol Zenith, PARASOL Zenith AWC and WISE PARASOL Zenith. All can now easily be supplemented with accessories that have been specially designed for suspended installation.

Design kit

The design kit offers stylish design in the case of suspended installation, hiding control and regulation components that can then easily be accessed via the service hatch.

The design kit is available in the following variants:

- Sizes 600, 1200 and 1800
- Spigot dimensions 125, 160 and 200
- Cooling or cooling/heating
- Air connection on all sides

Coanda frame

The coanda frame helps to maintain the coanda effect in order to minimise the risk of draughts in the occupied zone.

The coanda frame is available in the following variants:

- Sizes 600, 1200 and 1800

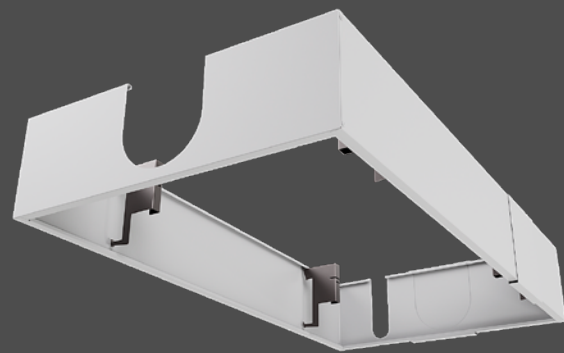

Optional colour

Like the product, the two accessories can be ordered in Swegon's standard colours and are ordered individually.

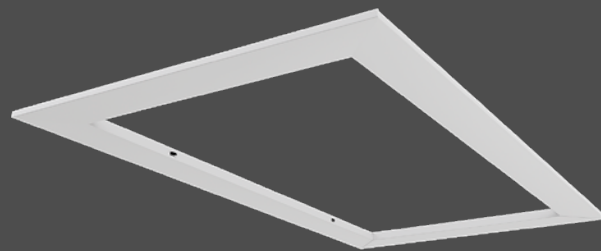

RAL 9005	RAL 9006	RAL 9007	RAL 9003	RAL 9010	RAL 7037
					

The design kit and the coanda frame can also be specially ordered in optional colours or relief finish paint.
